

Vacancy:	Community Governor
School:	Woodham Academy, Newton Aycliffe

Woodham Academy is an amazing school, with a strong leadership team and dedicated, hardworking staff. The students work hard and demonstrate just what it means to be part of a learning community.

This is an exciting and busy time for Woodham Academy as we look forward to an expanding school roll and a new school build.

Being a governor at Woodham Academy, although voluntary and unpaid, is both fulfilling and rewarding and brings with it a real sense of giving back to our community. We welcome those wanting to get involved in the community and learn new skills.

Governors commit to taking on roles specific to their field of expertise or interest e.g. Health and Safety, Finance, Human Resources and can bring their expertise to a range of Committees, which meet each half term.

Previous school governor experience is not essential but we are looking for an individual with commitment and skills that will compliment and strengthen the collective skills of our current Governor membership.

To support each Governor's understanding of their role we offer mentorship along with a comprehensive in-house training programme. This includes free membership of the training modules under the National Governance Association which can be completed online.

If you have experience in the areas of Safeguarding, Planning, IT, Information or Legal and feel that this opportunity is one in which you could really make a difference then please contact:

Sean Barnett, Chair of Governors on s.barnett@woodham.org.uk who will be happy to provide you with further information.
